

StatusTM RSV

lifeSign

A rapid immuno-chromatographic assay for the qualitative detection of respiratory syncytial virus (RSV) from anterior nasal swab specimens from patients with signs and symptoms of respiratory infections.

 **FAST • ACCURATE • ESSENTIAL**

Protect your most vulnerable patients with StatusTM RSV Test.
Early detection reduces the risk of complications and improves outcomes.

For infants/children 6 months to 6 years of age and adult seniors age ≥ 60 years.
